

# In-Line Gasket Strainers

Gasket Strainers are an effective way to protect downstream metering and regulation equipment from weld slag and other debris in the gas stream.

## Features

- Gasket Material – High quality GARLOCK 3000 asbestos-free.
- Available in Full Face or Ring Gasket versions.
- Screen Material – Stainless Steel.
- Available in 20 or 80 Mesh

## Advantages

- Wafer construction allows for easy installation between two mating flanges or a flange and meter/regulator – no additional space is necessary.
- Ideal for protection against line debris fouling downstream equipment.
- Strainer also serves as a functional gasket.

Part Number	Size	Type	Mesh
94465P007	2" ANSI 125/150	Full Face	80
94465P008	3" ANSI 125/150	Full Face	80
94465P009	4" ANSI 125/150	Full Face	80
94465P010	2" ANSI 125/150	Ring Gasket	20
94465P011	3" ANSI 125/150	Ring Gasket	20
94465P012	4" ANSI 125/150	Ring Gasket	20
94465P013	2" ANSI 125/150	Full Face	20
94465P014	3" ANSI 125/150	Full Face	20
94465P015	4" ANSI 125/150	Full Face	20

## About Elster Group

A world leader in advanced metering infrastructure, integrated metering, and utilization solutions to the gas, electricity and water industries. Elster's metering and system solutions reflect over 170 years of knowledge and experience in measuring precious resources and energy.

Elster provides solutions and advanced technologies to help utilities more easily, efficiently and reliably obtain and use advanced metering intelligence to improve customer service, enhance operational efficiency, and increase revenues. Elster's AMI solutions enable utilities to cost-effectively generate, deliver, manage, and conserve the life-essential resources of gas, electricity, and water.

Elster has a staff of over 7,500 serving customers globally in North America, Central America, South America, Europe, Asia, Africa and the Middle East.
